

Hand Building Basics

Learn the basics of hand building with clay in this fun and easy class! Instructor Tami Howell will show you how easy it is to make basic cylinders of varying sizes and how to add your own personal touch to each piece you create. Learn about using the slab roller, measuring out your clay, and basic construction techniques. Cylinders are great to have to use as a pencil/pen holder, toothbrush holder, or even something for your dinner table. We all need something to put those great Italian breadsticks in, don't we?

Students pieces will be bisque-fired here at the Arts and Crafts Center and ready for pick up the following week. Everyone is encouraged to take the "Glazing Basics" class on Thursday, September 30 in order to properly finish and glaze their piece to perfection!

Cost includes instruction, studio time, materials/tools, and bisque firing.

Date: Thursday September 16

Time: Noon – 2 p.m.

Cost: \$30
